

DEPARTMENT OF ARTIFICIAL INTELLIGENCE & MACHINE LEARNING

EVENT NAME	DATE	TYPE OF WORKSHOP	NO.OF STUDENTS PARTICIPATED
24 hours AI Hackathon	Feb 6-7 2025	Hackathon	40

Students of VIII and VII semesters from the Departments of AI & ML, CSE (Data Science), and AIDS actively participated in the **24-Hour AI Hackathon 2025** held at VR Siddhartha Engineering College on 6–7 February 2025. The hackathon brought together students from various technology disciplines to collaborate and compete in developing innovative AI-based solutions. Our students worked on challenging themes such as autonomous bots, drones, and AI-driven gaming, demonstrating technical expertise, creativity, and teamwork. The event provided a valuable platform for experiential learning, problem-solving under time constraints, and exposure to real-world technological challenges. Their participation reflects the department’s commitment to fostering innovation, practical skills, and competitive spirit among students.
